

## Lectora 508 Compliance Document

Criteria Listed on the Information Technology Industry Council Website

<http://www.itic.org/>

### Summary Table Voluntary Product Accessibility Template

<b>Criteria</b>	<b>Supporting Features</b>	<b>Remarks and explanations</b>
Section 1194.21 Software Applications and Operating Systems	Please refer to the following VPAT for Trivantis Lectora Publisher features that meet these criteria.	
Section 1194.22 Web-based Internet Information and Applications	Please refer to the following VPAT for Trivantis Lectora Publisher features that meet these criteria.	
Section 1194.23 Telecommunications Products	These criteria do not apply to Trivantis Lectora Publisher.	
Section 1194.24 Video and Multi-media Products	These criteria do not apply to Trivantis Lectora Publisher.	
Section 1194.25 Self-Contained, Closed Products	These criteria do not apply to Trivantis Lectora Publisher.	
Section 1194.26 Desktop and Portable Computers	These criteria do not apply to Trivantis Lectora Publisher.	
Section 1194.31 Functional Performance Criteria	Please refer to the following VPAT for Trivantis Lectora Publisher features that meet these criteria.	
Section 1194.41 Information, Documentation and Support	Please refer to the following VPAT for Trivantis Lectora Publisher features that meet these criteria.

## Section 1194.21 Software Applications and Operating Systems Voluntary Product Accessibility Template

**This Section Applies to the Lectora Authoring Tool, not content created with product.**

Criteria	Supporting Features	Remarks and explanations
(a) When software is designed to run on a system that has a keyboard, product functions shall be executable from a keyboard where the function itself or the result of performing a function can be discerned textually.	Criteria not met.	Note: Lectora does offer limited functionality via keystrokes, however the nature of the application limits it from meeting this criteria.
(b) Applications shall not disrupt or disable activated features of other products that are identified as accessibility features, where those features are developed and documented according to industry standards. Applications also shall not disrupt or disable activated features of any operating system that are identified as accessibility features where the application programming interface for those accessibility features has been documented by the manufacturer of the operating system and is available to the product developer.	Criteria fully met.	
(c) A well-defined on-screen indication of the current focus shall be provided that moves among interactive interface elements as the input focus changes. The focus shall be programmatically exposed so that Assistive Technology can track focus and focus changes.	Criteria Not met.	
(d) Sufficient information about a user interface element including the identity, operation and state of the element shall be available to Assistive Technology. When an image represents a program element, the information conveyed by the image must also be available in text.	Criteria Not met.

## Section 1194.21 Software Applications and Operating Systems Voluntary Product Accessibility Template

**This Section Applies to the Lectora Authoring Tool, not content created with product.**

(e) When bitmap images are used to identify controls, status indicators, or other programmatic elements, the meaning assigned to those images shall be consistent throughout an application's performance.	Criteria fully met.	
(f) Textual information shall be provided through operating system functions for displaying text. The minimum information that shall be made available is text content, text input caret location, and text attributes.	Criteria fully met.	
(g) Applications shall not override user selected contrast and color selections and other individual display attributes.	Criteria fully met.	
(h) When animation is displayed, the information shall be displayable in at least one non-animated presentation mode at the option of the user.	Not Applicable to Lectora.	
(i) Color coding shall not be used as the only means of conveying information, indicating an action, prompting a response, or distinguishing a visual element.	Criteria fully met.	
(j) When a product permits a user to adjust color and contrast settings, a variety of color selections capable of producing a range of contrast levels shall be provided.	Criteria fully met.	
(k) Software shall not use flashing or blinking text, objects, or other elements having a flash or blink frequency greater than 2 Hz and lower than 55 Hz.	Criteria fully met.	
(l) When electronic forms are used, the form shall allow people using Assistive Technology to access the information, field elements, and functionality required for completion and submission of the form, including all directions and cues.	Criteria fully met.	Users can tab and arrow across forms in Lectora.

**Lectora 508 Compliance Document**  
**Section 1194.22 Web-based Internet Information and Applications**  
 Voluntary Product Accessibility Template

**This Section Applies to the Lectora authored content.**

<b>Criteria</b>	<b>Supporting Features</b>	<b>Remarks and explanations</b>
(a) A text equivalent for every non-text element shall be provided (e.g., via "alt", "longdesc", or in element content).	Criteria fully met.	Course Developer controlled
(b) Equivalent alternatives for any multimedia presentation shall be synchronized with the presentation.	Criteria fully met.	Course Developer controlled
(c) Web pages shall be designed so that all information conveyed with color is also available without color, for example from context or markup.	Criteria fully met.	Course Developer controlled
(d) Documents shall be organized so they are readable without requiring an associated style sheet.	Criteria fully met.	Course Developer controlled
(e) Redundant text links shall be provided for each active region of a server-side image map.	Not Applicable	Lectora does not use server-side image maps
(f) Client-side image maps shall be provided instead of server-side image maps except where the regions cannot be defined with an available geometric shape.	Not Applicable	Lectora does not support client-side image maps
(g) Row and column headers shall be identified for data tables.	Criteria fully met.	Lectora supports a single row header within tables
(h) Markup shall be used to associate data cells and header cells for data tables that have two or more logical levels of row or column headers.	Criteria fully met.	Lectora does not support multiple row or column headers within tables

**Lectora 508 Compliance Document**  
**Section 1194.22 Web-based Internet Information and Applications**  
 Voluntary Product Accessibility Template

(i) Frames shall be titled with text that facilitates frame identification and navigation	Criteria fully met.	
(j) Pages shall be designed to avoid causing the screen to flicker with a frequency greater than 2 Hz and lower than 55 Hz.	Criteria fully met.	Course Developer Controlled
(k) A text-only page, with equivalent information or functionality, shall be provided to make a web site comply with the provisions of this part, when compliance cannot be accomplished in any other way. The content of the text-only page shall be updated whenever the primary page changes.	Criteria fully met.	Course Developer Controlled
(l) When pages utilize scripting languages to display content, or to create interface elements, the information provided by the script shall be identified with functional text that can be read by Assistive Technology.	Criteria fully met.	Course Developer Controlled
(m) When a web page requires that an applet, plug-in or other application be present on the client system to interpret page content, the page must provide a link to a plug-in or applet that complies with 1194.21(a) through (l).	Criteria fully met.	Course Developer Controlled
(n) When electronic forms are designed to be completed on-line, the form shall allow people using Assistive Technology to access the information, field elements, and functionality required for completion and submission of the form, including all directions and cues.	Criteria fully met.	Course Developer Controlled
(o) A method shall be provided that permits users to skip repetitive navigation links.	Criteria fully met.	Course Developer Controlled
(p) When a timed response is required, the user shall be alerted and given sufficient time to indicate more time is required.	Criteria fully met.	Course Developer Controlled

Note to 1194.22: The Board interprets paragraphs (a) through (k) of this section as consistent with the following priority 1 Checkpoints of the Web content Accessibility Guidelines 1.0 (WCAG 1.0) (May 5 1999) published by the Web Accessibility Initiative of the World Wide Web Consortium: Paragraph (a) - 1.1, (b) - 1.4, (c) - 2.1, (d) - 6.1, (e) - 1.2, (f) - 9.1, (g) - 5.1, (h) - 5.2, (i) - 12.1, (j) - 7.1, (k) - 11.4.

## Lectora 508 Compliance Document

### Section 1194.31 Functional Performance Criteria

**This Section Applies to the Lectora Authoring Tool, not content created with product.**

Criteria	Supporting Features	Remarks and explanations
(a) At least one mode of operation and information retrieval that does not require user vision shall be provided, or support for Assistive Technology used by people who are blind or visually impaired shall be provided.	Criteria not met.	
(b) At least one mode of operation and information retrieval that does not require visual acuity greater than 20/70 shall be provided in audio and enlarged print output working together or independently, or support for Assistive Technology used by people who are visually impaired shall be provided.	Criteria not met.	
(c) At least one mode of operation and information retrieval that does not require user hearing shall be provided, or support for Assistive Technology used by people who are deaf or hard of hearing shall be provided.	Criteria fully met.	
(d) Where audio information is important for the use of a product, at least one mode of operation and information retrieval shall be provided in an enhanced auditory fashion, or support for assistive hearing devices shall be provided.	Criteria fully met.	
(e) At least one mode of operation and information retrieval that does not require user speech shall be provided, or support for Assistive Technology used by people with disabilities shall be provided.	Criteria fully met.	
(f) At least one mode of operation and information retrieval that does not require fine motor control or simultaneous actions and that is operable with limited reach and strength shall be provided.	Criteria fully met.	

**Lectora 508 Compliance Document**  
**Section 1194.41 Information, Documentation, and Support**

**This Section Applies to the Lectora Authoring Tool, not content created with product.**

Criteria	Supporting Features	Remarks and explanations
(a) Product support documentation provided to end-users shall be made available in alternate formats upon request, at no additional charge.	Criteria not met.	
(b) End-users shall have access to a description of the accessibility and compatibility features of products in alternate formats or alternate methods upon request, at no additional charge.	Criteria fully met.	
(c) Support services for products shall accommodate the communication needs of end-users with disabilities.	Criteria fully met.
