for Microsoft® PowerPoint® from Trivantis

FAQs

Will Lectora convert the transition effects from PowerPoint?

Yes. Lectora supports all transition effects included in Microsoft PowerPoint 2000. You can select whether to import or not import the transitions.

Will Lectora convert the notes from PowerPoint?

Yes. Lectora imports PowerPoint notes.

What screen sizes are available?

Lectora has five standard screen size options, plus custom sizing for unlimited size options.

Are the PowerPoint slides converted as screenshots or editable objects?

Objects are imported in their native format and are editable in Lectora—including text, images, animations, actions, and hyperlinks.

Does the Lectora PowerPoint Integrator convert PowerPoint presentations to any other format than Lectora?

Yes. The Lectora Integrator can be used independent of Lectora to convert PowerPoint presentations to an XML format.

How long does it take to convert a PowerPoint presentation to Lectora?

Most PowerPoint presentations convert in a matter of seconds. Larger, media heavy presentations may take a couple of minutes.
